SAFETY DATA SHEET

Conforms to EU regulation EC 1907/2006 and amendments

AQUAGEL

Identification of the substance or preparation

Product name : AQUAGEL
Product use : Lubricating jelly

Product is for professional use only

Company/undertaking identification

Manufacturer/ : Ecolab Ltd.
Distributor/ : David Murray John Building
Importer : UK-SN1 1NH Swindon, Wiltshire
England
Tel +44 (0)1793 511221
Fax +44 (0)1793 618552
CCS@ecolab.com
Emergency phone: 01793 511221

Hazards identification

The product is not classified as dangerous according to Directive 1999/45/EC and its amendments.
Classification : Not classified.
See section 11 for more detailed information on health effects and symptoms.

Composition/information on ingredients

Substance/preparation : Preparation

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

[1] Substance classified with a health or environmental hazard
[2] Substance with a workplace exposure limit
[3] PBT-substance
[4] vPvB-substance

Occupational exposure limits, if available, are listed in section 8.

First aid measures

First-aid measures

Inhalation : Move exposed person to fresh air. Get medical attention if symptoms occur.
Ingestion : Wash out mouth with water. Move exposed person to fresh air. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Date of issue : 20 January 2010
AQUAGEL

Skin contact : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes.

Eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Get medical attention if irritation occurs.

Specific treatments : Not available.

See section 11 for more detailed information on health effects and symptoms.

5. Fire-fighting measures

Extinguishing media - Suitable : In case of fire, use water spray (fog), foam, dry chemical or CO₂.

Extinguishing media - Not suitable : None known.

Special protective equipment for fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental release measures

Personal precautions : Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation.

Environmental precautions : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Small spill : Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container.

Large spill : Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13).

Note: see section 8 for personal protective equipment and section 13 for waste disposal.

7. Handling and storage

Handling : Do not ingest. Avoid contact with eyes, skin and clothing. After handling, always wash hands thoroughly with soap and water.

Storage : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use.

Packaging materials Recommended : Use original container.

8. Exposure controls/personal protection

</tbody>
</table>

Exposure controls

Occupational exposure controls : If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators.

Respiratory protection (EN 143, 14387) : A respirator is not needed under normal and intended conditions of product use.

Hand protection (EN 374) : No special recommendations.

Eye protection (EN 166) : No special recommendations.

Skin protection (EN 14605) : No special recommendations.

Date of issue : 20 January 2010
AQUAGEL

9. Physical and chemical properties

General information
Appearance
Physical state: Liquid. [Gel]
Colour: Colourless.
Odour: Odourless.

Important health, safety and environmental information
pH: 6.5 to 7.5 (100%)
Boiling point: Not available.
Melting point: Not available.
Flash point: > 100°C
Flammability (solid, gas): Not applicable.
Explosive properties: Not applicable.
Explosion limits: Not applicable.
Oxidising properties: Not available.
Vapour pressure: Not applicable.
Relative density: 1.011 g/cm³ (20 °C)
Solubility: Easily soluble in cold water.
Octanol/water partition coefficient: Not available.
Viscosity: Dynamic: 20000 mPa·s (20000 cP)

10. Stability and reactivity
Stability: Stable under normal conditions.
Do not mix with other products.

11. Toxicological information
Potential acute health effects
Inhalation: No known significant effects or critical hazards.
Ingestion: No known significant effects or critical hazards.
Skin contact: No known significant effects or critical hazards.
Eye contact: No known significant effects or critical hazards.
Carcinogenicity: No known significant effects or critical hazards.
Mutagenicity: No known significant effects or critical hazards.
Reproductive toxicity: No known significant effects or critical hazards.

12. Ecological information
Ecotoxicity
The product is not subject to ecological classification according to directive 1999/45/EC.

Persistence and degradability
The ecological evaluation of the product is based on data from the raw material and/or comparable substances. The total of the organic components contained in the product achieve > 60% BOD/COD or CO2 liberation, or > 70% DOC reduction in tests for ease of degradability - threshold values for 'readily degradable' (e.g. to OECD method 301).

Date of issue: 20 January 2010
13. Disposal considerations

Methods of disposal:

- The generation of waste should be avoided or minimised wherever possible.
- Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Can be added to general waste collection after completely emptying. Use packages for recycling only when totally empty.

European waste catalogue (EWC):

- 200130

Follow special pack instructions for air transport.

15. Regulatory information

EU regulations:

- Risk phrases:
  - This product is not classified according to EU legislation.

National regulations:

- The Chemicals (Hazard Information and Packaging for Supply) Regulations.
- The Control of Substances Hazardous to Health Regulations.
- Health and Safety at Work Act.

16. Other information

- Full text of R-phrases referred to in sections 2 and 3 - United Kingdom (UK):
  - Not applicable.

History:

- Date of printing: 20 January 2010
- Date of revision: 20 January 2010
- Version: 3
- Prepared by: Ecolab Regulatory Department Europe

Notice to reader:

The above information is believed to be correct with respect to the formula used to manufacture the product in the country of origin.
